Exam : **000-324**

Title : IBM eserver zseries technical.version 1

Version : DEMO

1.A customer needs 12 additional FICON channels on a 2084. Six channels are LX, and six are SX. The required FICON is Express2. How many FICON Express feature codes will be required to meet this requirement?

A.3, where each FICON Express2 feature code has four FICON channels

B.4, two feature codes for LX FICON and two feature codes for SX FICON

C.6, three per FICON channel type

D.6, where each FICON Express 2 feature code has two FICON channels

Correct:B

2.z/OS.e runs on which of the following machines?

A.MP3000

B.z900 and z990

C.z800 and z890

D.All zSeries architecture machines

Correct:C

3.Which of the following is NOT a Server-to-Server communication method between two physical machines?

A.InterSystem Channels (ISC)

B.HiperSockets

C.Integrated Cluster Bus (ICB) channels

D.Channel-to-channel (CTC or FCTC) connections

Correct:B

4.Which of the following software products does NOT have an offering to run under Linux?

A.Oracle

B.WebSphere

C.IMS DB

D.DB2 UDB

Correct:C

5.Which of the following I/O Channel Subsystem components would improve the efficiency of TCP/IP?

A.Dynamic Channel Path Management

B.Channel Subsystem Priority Queuing

C.SAPs and EMIF

D.Queued Direct Input/Output

Correct:D

6.All of the following apply to z/OS WLM EXCEPT:

A.It provides programming interfaces that can allow customers to set goals for their transactions.

B.It provides goal oriented, dynamic resource management and goals are based on business importance.

C.It simplifies definition, control, and reporting of the performance requirements for z/OS workloads.

D.It coordinates z/OS images across a sysplex to process work towards multiple goals and shares goals with other products.

Correct:D

7.A performance analysis indicates that a customer's current 2064-2C5 needs more processing power. The MES is being requested based on the analysis to upgrade from a 2C5 to a 2C7 as soon as possible. The customer cannot afford the maintenance window for installation. Which of the

following is the preferred action?

A.Ask the customer to schedule the installation when the machine can be stopped.

B.Tune the current machine to improve the performance as much as possible and delay the installation until the machine can be stopped.

C.Persuade the customer to schedule the installation window immediately.

D.Schedule the installation to be performed concurrently.

Correct:D

8.An Internet Service Provider is considering using a z990 for deploying hundreds of Linux systems under z/VM. The zSeries platform would provide the MOST value for this customer in terms of:

A.Processing speed.

B.Response time.

C.Systems management.

D.Memory size.

Correct:C

9.Which of the following middleware is an important part of the IBM's on demand strategy for the zSeries platform?

A.Debug tool

B.WebSphere Application Server (WAS)

C.Resource Management Facility (RMF)

D.SA/390

Correct:B

10.Which of the following z800 models can be upgraded to a z890 model?

A.1C8

B.0A2

C.310

D.100

Correct:B

11.What is the maximum number of zAAP processors that can be installed on a 2084?

A.16

B.12

C.8

D.0

Correct:A

12.Which of the following workloads would NOT be a candidate for a z/OS.e partition?

A.WebSphere for z/OS

B.PL/I Applications

C.SAP

D.Oracle

Correct:B

13.What is considered to be a traditional mainframe workload?

A.Servlets, JSPs

B.Linux workload

C.CPU intense

D.Batch and OLTP

Correct:D

14.The Hardware Configuration Manager (HCM) allows the:

A.Operations staff to operate the system from a PC.

B.Operations staff to reconfigure zSeries channel attachments dynamically.

C.Systems programmer to define the zSeries I/O subsystem via a PC application.

D.Systems programmer to replace the Hardware Configuration Definition (HCD) function.

Correct:C

15.Which of the following operating systems is supported on a z990?

A.z/OS.e 1.6

B.z/VM 4.4

C.OS/390 2.8

D.z/OS 1.1

Correct:B

16.Which of the following is true about IBM's Mainframe Charter?

A.It highlights ways IBM intends to deliver ongoing value for customers using zSeries.

B.It helps customers accelerate their implementation of IBM's on demand business initiatives using the S/390.

C.It is primarily about products and services available for helping customers simplify their IT infrastructure.

D.It is a way to implement Java technologies

Correct:A

17.Which Crypto feature is required on a z990 to provide both the secure key and the accelerator function?

A.Crypto Express 2

B.PCIXCC

C.PCICA

D.CPACF

Correct:A

18.Which of the following statements applies to a CICS/DB2 workload?

A.It usually runs during off peak time.

B.It is an online workload.

C.It is a batch workload.

D.It does not support data sharing.

Correct:B

19.Which of the following is a new function on the z890 that is not available on the z800?

A.An MCM with 5 processors

B.Capacity Backup

C.OSA-Express Integrated Console Controller

D.HiperSockets

Correct:C

20.Parallel Sysplex clustering provides which of the following tactical benefits?

A.It provides near continuous availability.

B.Applications can be isolated to improve performance.

C.FICON cabling can improve response times.

D.Use of channel subsystems is more efficient.
Correct:A
