Exam : **646-573**

Title : Cisco Lifecycle Services
Advanced Security(LCSAS)

Version : DEMO

1.Which service component in the plan phase must be finished before Security Readiness Assessment?

A.High Level Design

B.Site Readiness Assessment

C.Detail Design

D.Technology Strategy Assessment

Correct:B

2.Where are the current escalation procedures of the customer typically documented?

A.High Level Design

B.Preliminary Discovery Document

C.Security Readiness Assessment

D.Business Requirements Document

Correct:C

3.For a security solution, which task is associated with the Business Requirements Development service component in the prepare phase?

A.Document Current Topology, Hardware and Software

B.Assess Technical Requirements for the Proposed Security Solution

C.Analyze the Security Solution Integration Requirements with Existing Legacy Platforms

D.Document System Level Functionality

E.Review Security Alerts and Notification Requirements

Correct:D

4.Which task is conducted in the optimization workshop?

A.Conduct User Community/Adoption Absorption Analysis

B.Determine Network Elements That Will Be Tested

C.Review Security Solution Install Guides, Release Notes, and User Guides

D.Review Security Solution Network Availability

E.Verify Network Redundancy

Correct:A

5.Which key task is conducted as part of Problem Management?

A.Remotely Backup Endpoint Solution Configuration and Databases

B.Provide Software Upgrades, Updates, and Bug Fixes for the Endpoint Solution System

C.Conduct Move, Adds, Changes

D.Select Fault Management Tools and Products

Correct:B

6.Which resource is commonly used when a CSA component is installed?

A.Sensor Maintenance Procedures

B.Release Notes

C.Policy Guides

D.Low Level Design

Correct:B

**7.Which activity is conducted by using CSA release notes as a resource?**

A.Determine CSA Feature and Function Design Specifications

B.Install S/W and Achieve Connectivity

C.Implement Policies and Groups

D.Fine Tune the Custom Policy

Correct:B

8.Look at the picture.

In Staging, what is the correct flow of events for a CSA policies and groups implementation? Click and drag each task from the left to the corresponding step on the right.

Fine Tune the Custom Policy

Implement the Customized CSA Policy using CSA Agent Profiler

Create one Application Group for each type of Application Environment that needs to be protected

Use Default CSA Policy and tune if necessary

Implement Policies for each Application Group using a Phased Approach

Step 1

Step 2

Step 3

Step 4

Step 5

Correct:

Green choice3---->Yellow Choice1

Green choice5---->Yellow Choice2

Green choice4---->Yellow Choice3

Green choice2---->Yellow Choice4

Green choice1---->Yellow Choice5

9.What is the first activity that is conducted in an IPS mode implementation?

A.Create a Rule from a Query

B.Tune for False Positives

C.Install the Sensor, Schedule a Network Outage Prior to the Installation

D.Fine Tune the Custom Policy

Correct:C

10.Which two tasks are associated with the technology strategy meeting in the prepare phase? (Choose two.)

A.Document the Customer's Current and Future Technology Projects

B.Assess Current Security Management Procedures

C.Determine the Security Solution Feature and Function

D.Identify a Set of Systems That Will Be Protected in a Pilot Implementation Based upon Guidelines

E.Document Security Policy Requirements

Correct:A E
